Laws of the United States,

Passed at the Second Session of the Thirty-seventh Congress.

[Public Act No. 50.]

An Act to authorize the issue of the United States Notes, and for the redemption or funding thereof, and for funding the floating debt of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby authorized to issue, on the credit of the United States, $150,000,000 of United States notes, not bearing interest, payable to bearer, at the Treasury of the United States, and of such denominations as he may deem expedient, not less than $5 each. Provided, however, That $50,000,000 of said notes shall be in lieu of the demand Treasury Notes authorized to be issued by the Act of July 17, 1861, which said demand notes shall be taken up as rapidly as practicable, and the notes herein provided for substituted for them. And provided further, That the amount of the two kinds of notes together shall at no time exceed the sum of $150,000,000, and such notes herein authorized shall be receivable in payment of all taxes, internal duties, excises, debts and demands of every kind due to the United States, except duties on imports, and of all claims and demands against the United States of every kind whatsoever, except for interest upon bonds and notes, which shall be paid in coin, and shall also be lawful money and legal tender in payment of all debts, public and private, within the United States, except duties on imports and interest as aforesaid. And any holders of said United States notes depositing any sum not less than $50, or some multiple of $50, with the Treasurer of the United States, or either of the Assistant Treasurers, shall receive in exchange therefor duplicate certificates of deposit, one of which may be transmitted to the Secretary of the Treasury, who shall thereupon issue to the holder an equal amount of bonds of the United States, coupon or registered, as may by said holder be desired, bearing interest at the rate of six per centum per annum, payable semi-annually, and redeemable at the pleasure of the United States after five years, and payable twenty years from the date thereof. And such United States notes shall be received the same as coin, at their par value, in payment for any loans that may be hereafter sold or negotiated by the Secretary of the Treasury, and may be reissued from time to time as the exigencies of the public interest shall require.

SEC. 2. And be it further enacted, That to enable the Secretary of the Treasury to fund the Treasury notes and floating debt of the United States, he is hereby authorized to issue, on the credit of the United States, coupon bonds or registered bonds, to an amount not exceeding $500,000,000, redeemable at the pleasure of the United States after five years and payable twenty years from date, and bearing interest at the rate of six per centum per annum, payable semi-annually. And the bonds herein authorized shall be of such denominations, not less than $50, as may be determined upon by the Secretary of the Treasury. And the Secretary of the Treasury may dispose of such bonds at any time, at the market value thereof, for the coin of the United States, or for any of the Treasury notes that have been or may hereafter be issued under any former act of Congress, or for United States notes that may be issued under the provisions of this act; and all stocks, bonds and other securities of the United States held by individuals, corporations or associations, within the United States, shall be exempt from taxation by or under State authority.

SEC. 3. And be it further enacted, That the United States notes and the coupon or registered bonds authorized by this act shall be in such form as the Secretary of the Treasury may direct, and shall bear the written or engraved signatures of the Treasurer of the United States and the Register of the Treasury, and also, as evidence of lawful issue, the imprint of a copy of the seal of the Treasury Department, which imprint shall be made under the direction of the Secretary, after the said notes or bonds shall be received from the engravers and before they are issued; or the said notes and bonds shall be signed by the Treasurer of the United States, or for the Treasurer by such persons as may be specially appointed by the Secretary of the Treasury for that purpose, and shall be countersigned by the Register of the Treasury, or for the Register, by such persons as the Secretary of the Treasury may specially appoint for that purpose; and all the provisions of the Act entitled, "An Act to authorize the issue of Treasury notes," approved the 23d day of December, 1857, so far as they can be applied to this act, and not inconsistent therewith, are hereby revived and re-enacted; and the sum of $1,000,000 is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to enable the Secretary of the Treasury to carry this Act into effect.

SEC. 4. And be it further enacted, That the Secretary of the Treasury may receive from any person or persons, or any corporation, United States notes on deposit for not less than 30 days, in sums of not less than $100, with any of the Assistant Treasurers or designated depositaries of the United States authorized by the Secretary of the Treasury to receive them, who shall issue therefor certificates of deposit, made in such form as the Secretary of the Treasury shall prescribe, and said certificates of deposit shall bear interest at the rate of 5 per centum per annum; and any amount of United States notes so deposited may be withdrawn from deposit at any time after 10 days' notice on the return of said certificates. Provided, That the interest on all such deposits shall cease and determine at the pleasure of the Secretary of the Treasury. And provided further, That the aggregate of such deposit shall at no time exceed the amount of $25,000,000.

SEC. 5. And be it further enacted, That all duties on imported goods shall be paid in coin, or in notes payable on demand, heretofore authorized to be issued and by law receivable in payment of public dues, and the coin so paid shall be set apart as a special fund, and shall be applied as follows:

First. To the payment in coin of the interest on the bonds and notes of the United States.

Second. To the purchase or payment of one per centum of the entire debt of the United States, to be made within each fiscal year after the first day of July, 1862, which is to be set apart as a sinking fund, and the interest of which shall in like manner be applied to the purchase or payment of the public debt as the Secretary of the Treasury shall from time to time direct.

Third. The residue thereof to be paid into the Treasury of the United States.

SEC. 6. And be it further enacted, That if any person or persons shall falsely make, forge, counterfeit or alter, or cause or procure to be falsely made, forged, counterfeited or altered, or shall willingly aid or assist in falsely making, forging, counterfeiting or altering any note, bond, coupon, or other security issued under the authority of this act, or heretofore issued under acts to authorize the issue of Treasury notes or bonds; or shall pass, utter, or sell, or attempt to pass, utter, publish or sell, or bring into the United States from any foreign place with intent to pass, utter, publish or sell, or shall have or keep in possession or conceal with intent to utter, publish or sell any such false, forged, counterfeited or altered note, bond, coupon, or other security, with intent to defraud any body corporate or politic, or any other person or persons whatsoever, every person so offending shall be deemed guilty of felony, and shall, on conviction thereof, be punished by fine not exceeding $5,000, and by imprisonment and confinement to hard labor not exceeding fifteen years, according to the aggravation of the offense.

SEC. 7. And be it further enacted, That if any person having the custody of any plate or plates from which any notes, bonds, coupons, or other securities mentioned in this act, or any part thereof, shall have been printed, or which shall have been prepared for the purpose of printing any such notes, bonds, coupons, or other securities, or any part thereof, shall use such plate or plates, or knowingly permit the same to be used for the purpose of printing any such notes, bonds, coupons, or other securities, or any part thereof, except such as shall be printed for the use of the United States by order of the proper officer thereof; or if any person shall engrave, or cause or procure to be engraved, or shall aid in engraving, any plate or plates in the likeness or similitude of any plate or plates designed for the printing of any such notes, bonds, coupons, or other securities, or any part thereof; or shall vend or sell any such plate or plates, or shall bring into the United States from any foreign place any such plate or plates, with any other intent or for any other purpose, in either case, than that such plate or plates shall be used for printing of such notes, bonds, coupons or other securities, or some part or parts thereof, for the use of the United States, or shall have in his custody or possession any metallic plate engraved after the similitude of any plate from which any such notes, bonds, coupons or other securities, or any part or parts thereof, shall have been printed, with intent to use such plate or plates, or cause or suffer the same to be used in forging or counterfeiting any such notes, bonds, coupons, or other securities, or any part or parts thereof, issued as aforesaid, or shall have in his custody or possession any blank note or notes, bond or bonds, coupon or coupons, engraved and printed after the similitude of any notes, bonds, coupons or other securities issued as aforesaid, with intent to sell or otherwise use the same; or if any person shall print, photograph, or in any other manner execute, or cause to be printed, photographed, or in any manner executed, or shall aid in printing, photographing or executing any engraving, photograph, or other print or impression in the likeness of any such notes, bonds, coupons, or other securities, or any part or parts thereof, except for the use of the United States, and by order of the proper officer thereof, or shall vend or sell any such engraving, photograph, print or other impression, except to the United States, or shall bring into the United States from any foreign place any such engraving, photograph, print or other impression for the purpose of vending or selling the same, except by the direction of some proper officer of the United States, or shall have in his possession any such engraving, photograph, print or other impression, with intent to sell or otherwise use the same; or if any person shall print, photograph, or in any manner execute, or cause to be executed, any such notes, bonds, coupons, or other securities, and shall offend against any of the provisions hereof, every person so offending shall be deemed guilty of a felony, and shall, on conviction thereof, be punished by fine not exceeding $5,000, and by imprisonment and confinement to hard labor not exceeding fifteen years, according to the aggravation of the offense.

BUCHTEL & CARDWELL'S
PICTURES ARE THE BEST IN OREGON

THE EIGHTH CENSUS REPORT.—A Washington correspondent says the manuscript sheets of the fourth and preliminary report on the eighth census, the printing whereof has been ordered by Congress, consist of some twenty chapters, devoted to important illustrations of the progress of the country, population, agriculture, manufactures and other permanent interest, written in a manner to render statistics attractive to the common reader. It embraces a view of the progress of slavery and the colored race, and of slavery among Indian tribes. It contains a carefully prepared chapter on emigration, and illustrates the changes which have been wrought in the representation in Congress. The subjects of medicine and disease are treated at some length and a complete history is given of the progress made in the treatment of the deaf and dumb, blind, insane and idiotic in this country and Europe. The progress of the country in its banks and monetary concerns receives due mention, while the condition of the newspaper press and its progress are given with accuracy and care. So far as the subjects embraced by the census have been tabulated, the report of the Superintendent details the results of that great work. The chapter on the progress of manufactures and the mechanic arts will excite wonder not only in this country, but in Europe, at the amazing advance we have made in the last ten years. The report will include many tables which form the basis of the narrative. A volume of this character will be of much more practical use and possess much greater interest than a dozen volumes of figures.

OTHELLO NOT A MOOR.—The Venetians know Othello, they have heard of Shakspeare, and are in ecstacies at Rossini's opera, but the story is a curious one. They have, since Shakspeare wrote and Rossini spoilt what he wrote, thought it right to make inquiries as to the foundation of the story of Othello, but no traces of it appear in any of the records of Venetian story. At length they have discovered what, probably, is the origin of the story on which Shakspeare wrote. There was, and is still, a noble Venetian family of Il Moro.—A story something like that of Othello is said to have happened in that family. The head of that very noble Venetian family is usually spoken of in the third person, and Shakspeare having heard or read of the story as happened to Il Moro, concluded that he was a Mauro, or Moor, and wrote his play accordingly.

The Incoming Emigration

The remarks that we have made on this subject, have wakened up a writer in Washington Territory, who has furnished us with a communication setting forth the advantages offered to emigrants by the rich lands on the rivers which empty into Shoalwater Bay and Gray's Harbor We cannot doubt the correctness of his statements We are not opposed to the settlement of emigrants in Washington Territory—but the question arises whether the large districts of lands in that Territory, which have scarcely been crossed with white men's feet, offer the farming and social advantages to be realized in the Valley of the Willamette? Still new comers who are willing to undergo the privations of settling a new country, and possess little means, may do exceedingly well in the country commended. Doubtless population would long since have been there, but for the fact that the country was off the natural route of travel

Without disparaging other sections, we repeat what we have often said that the WILLAMETTE VALLEY IS THE AGRICULTURAL GEM OF THE PACIFIC COAST, that unimproved lands of good quality can be found here, that improved lands can be purchased at exceedingly low prices; and that in our opinion no region on this coast offers more advantages to the new emigrant, if his employment is that of a farmer.

FROM OLYMPIA —By private letter from a friend in Olympia, we learn that A M Poe, of the *Overland Press*, has sold out his privilege as Public Printer to B F Kendall, Esq, and further, that Poe was compelled to give up the press, and material of the *Overland Press* establishment to Mr James Lodge, the former proprietor of that establishment, not being able to pay for the same according to purchase contract Mr. Lodge turned the material over to Gen W W Miller, Attorney for Edward Furste, and Gen. Miller sold the establishment to B. F Kendall, who will probably continue the publication of the paper, *or a paper*, for a short time An opportunity will thus be afforded Mr Kendall to make a full *expose* of all the many little *shenanigan* games among certain parties over there, as also his own complicity therewith leaving the good people of the country to judge which have been the greatest rascals A personal collision is expected between Kendall and Dr. Henry, *provided*, Kendall has the pluck to stand fire This, however, is considered doubtful

Business is moderately lively in that locality, and farmers are busily engaged in harvesting very fair crops of grain It is reported that Gen. Tilton contemplates going down to the Province of Chili, (S A,) in a short time, for the purpose of purchasing all the wheat that can be procured in that market for speculation, believing that flour is going to command a very high price during the next eighteen months

Mr C H. Hale, Superintendent of Indian Affairs for Washington Territory contemplates paying a visit to the Nez Perce tribe of Indians soon, for the purpose of forming a treaty with them relative to their reservation which includes the town site of Lewiston and a large portion of the mining region of that section of Washington Territory But few of the adventurers of Olympia and vicinity have returned with much dust from the mines of Salmon river or Cariboo Unlucky fellows, all of them

ANOTHER VERSION —We were informed by another gentleman, who says he passed the steamer *Tenino* three days ago, that she is undoubtedly wrecked, having broken in two near the center, her stern resting upon shore and her bow upon the reef of rocks in the river Her freight has been removed to the rocks in the middle of the river, but is not damaged to any amount

ADJOURNED —The Annual Conference of the M E Church which was in session at Vancouver for several days, adjourned at half-past 12 o'clock Tuesday night last A very pleasant session was held, and the proceedings were passed with the utmost harmony.

THE FLOODS IN HUNGARY —The Spring floods in Hungary were almost as severe in their devastation as those of last Winter in California In Colocsa a town which contained 1,778 houses 213 were in ruins, and 500 so damaged as to be uninhabitable and more than 500 people were left destitute —People visiting the flood stricken cities describe them as like the ruins of Babylon

FROM CHINA —The ship *Western Continent* has arrived at San Francisco from Hong Kong with dates to 7th July Tsing Poo a strong hold of the Chinese rebels, was captured on the 12th of May by the Allies The French Admiral Protet was killed at the storming of Nan Jao 17th May The report of the capture of Nankin is discredited

The State of New York has in the field 12 regiments of troops and 15 batteries of artillery

We Invite Emigrants to Washington Territory

[illegible] aware that there will be much disappointment among them [illegible] emigrants when they [illegible] the gold discoveries [illegible] We all know that [illegible] the [illegible] diggings [illegible] lazy [illegible] These usually [illegible] have a *clam* [illegible] is now already quite as many people in the upper [illegible] profitably [illegible] the result will be that nineteen twentieths [illegible] the country West of the Cascades

There is [illegible] in the Willamette valley to furnish farms for all the emigrants now on the way At this moment lands there are to be found at a low price but an increased demand will rapidly augment the prices I was pleased with your statement that there was a large amount of fine Congress land yet subject to entry in Multnomah county The advantages of a great and increasing market at Portland will always make farms in Multnomah county valuable

We have yet fine lands in Washington Territory which will make valuable farms and which in a few years improved as they might be would be an independence to a farmer These lands—I speak of only one district of Washington—are on waters which communicate with the ocean by means of good harbors—which are not subject to floods in summer and which in soil are as rich naturally as could be desired—yielding large and certain crops of vegetables and cereals

These lands are on the streams which enter Shoalwater Bay and Gray's Harbor Not to speak of other places on Shoalwater Bay I will say that the fine prairie lands on the Willopah—its deep waters—excellent fishing grounds—good timber—healthy position—fine water—invite emigrants to rear homes upon them Other localities on Shoalwater Bay possess equal advantages

Several very considerable rivers empty their waters into Gray's Harbor The Chehalis falls into it from the East Vast bodies of fertile handsome desirable lands can be found on the Chehalis and on the rivers which enter the Harbor from the North, there can be found in beautiful timber as fine prairie as rich bottoms on navigable streams for small craft as the sun ever shone upon

The small amount of cultivable land in Western Washington Territory the little farming improvements which can ever be made in British Columbia and on Vancouver Island—the certainty that in Washington a very considerable population must be employed in manufacturing its timber into lumber for the markets of the Pacific, the truth that the gold mines of British Columbia will ever invite thither a considerable population and that Vancouver Island already prides itself on possessing a large and rapidly increasing commercial city—must prove to every considerate man that farmers at the points suggested will ultimately realize a full reward for their labors

I speak not for other portions of Washington Territory but I do say that there are most inviting lands on the rivers that empty their waters into Shoalwater Bay and Gray's Harbor, and that emigrants—farmers—whose main wealth lies in their energy, their intelligence, their moral characters, and their determination to carve out homes on the Pacific coast, would find ample and inviting fields for their exertions in the regions I have named

We want emigrants; we invite them to come among us, the great wealth of this country will never be developed without a very large increase to our population We want people here We want thirty thousand every year, and we want open hands and generous hearts to receive them

While we shall be glad to see Oregon receive large accessions of people, we shall be quite as glad to see others here to enjoy with us all the advantages promised in the future for WASHINGTON TERRITORY

From the Upper Columbia

We take the following items from the Walla Walla *Statesman* of August 4th

MORE NEW GOLD FIELDS —We are informed by members of Lieut Mullan's party that while on their way in from the Bitter Root valley they received intelligence that new gold mines had been found on the eastern slope of the Rocky Mountains, on the Prickly Pear river, about one hundred and fifty miles this side of Fort Benton, also, that good paying prospects had been obtained on the Little Blackfoot river A number of the Fort Benton emigrants had stopped at these places

POWDER RIVER —A man in digging a well at Auburn, on Monday, prospected the dirt and found it to contain gold from near the surface down The well is about ten feet deep, and the prospects obtained ranged from seven to sixty cents to the pan The usual amount of excitement prevailed, and all the unoccupied lots in the vicinity were immediately taken up for mining claims

A correspondent from Auburn writes July 31st to the *Statesman* that Messrs Kirkpatrick & Co have discovered two lakes back in the mountains some five miles which will afford water for one of their Elk creek ditches by extending it on and tapping these lakes, which can easily be done They have some forty or fifty men employed on the work and expect to be able to furnish a supply of water for the Rich Flat and Freeze out gulch section in a few days

Four men arrived at Auburn yesterday direct from the Western States, having left their trains near Fort Hall They report the Indians on Snake river as peaceably disposed toward the emigration this year

"COP COP"—A town bearing the somewhat euphonious title of "Cop Cop," has lately been laid out on the emigrant road, near the foot of the mountains on the northern side of the Grand Ronde valley Cop Cop is an Indian word, signifying "grass valley"

DEER LODGE MINES —A large number of people are coming into the country,—some for the purpose of mining, and others for farming and ranching The gold found in the Deer Lodge mines assays at $17 60 per ounce

JOHN DAY VALLEY —The valley on John Day's river, near the new mines, is described by those who have visited it as one of the most beautiful and fertile east of the Cascades It is very small however, being only about fourteen miles in length and four miles in width

ARRIVED —Capt Mullan's escort in charge of Capt Marsh—about eighty men and twenty wagons—arrived at the Fort on Monday

Two men were drowned in Snake river in the following manner They were descending the river in a canoe and on coming to the head of Palouse rapids they got frightened and turned the canoe sidewise to shun a rock when the boat was upset

RACE COURSE —It is in contemplation by a couple of gentlemen of this city to commence immediately the construction of a race course a short distance below town

Rev Robert J Breckinridge

[illegible] Breckinridge [illegible]

The first [illegible] state of the country [illegible] war in which we are engaged [illegible] and prosecuted [illegible] applause [illegible] would be better [illegible] the calamity would [illegible] misery would be [illegible] I believe [illegible] should go back [illegible] to the infancy [illegible] let this great [illegible] subvert the Government [illegible]

[illegible] the estimation of [illegible] high to be paid [illegible] all in [illegible] this rebellion should [illegible] the last extremity [illegible] with reported applause [illegible] ment of vast majority of the people of the loyal States [illegible] believe with Dr. Breckinridge that no sacrifice can be too great which is necessary to maintain the integrity of the Union [illegible] the Union would prove to the present as well as future generations [illegible] Government for this continent is the almost universal sentiment [illegible] of the Union [illegible] istence of republican [illegible] succeeds both Governments will [illegible] and both will be [illegible] their leading [illegible] could never be relied upon [illegible] a regular army and the [illegible] pelled to follow the example [illegible] If the rebellion [illegible] the experiment of representative [illegible] be declared a failure [illegible] ceded that the majority [illegible] up arms [illegible] representative [illegible] majority [illegible] be pronounced dead and buried [illegible] that they still hold all the [illegible] ballot box [illegible] is so longer The Southern [illegible] ers were beaten at the ballot box, and they immediately organized an army [illegible] the President [illegible] elected They declared they would not submit [illegible] be permitted to form a government independent of that of the United States They went on and formed one and in doing so seized the forts arsenals, custom houses and mints belonging to the Government in the States they proposed to include in the new Confederacy They bid defiance to the United States Government in acts as well as words And when the Government finally moved [illegible] and self vindication those who had inaugurated rebellion proclaimed that the Federal Government had made war upon the South This rebellion was founded upon wicked ambition and infamous wholesale lying Those who set it in motion obtained power civil and military; and they now drive the people forward in rebellion, whether willing or unwilling What punishment can equal the deserts of the authors of this horrible rebellion?—*Sacramento Union*

A SECESH AMAZON —The following is contained in a private letter from Clarksville Virginia, and exhibits a decidedly interesting person to live with

About a dozen deserters from the rebel army came in yesterday very much frightened wanting transportation to Ohio We also captured a very desperate woman by the name of Jenny Green and sent her under guard to Wheeling She is only about eighteen or twenty years of age and not bad looking she lived about thirty miles from here and told General Kelly that she cut all his telegraph wires when he was up the Kanawha and she d—d "be d—d if she wouldn't do it again She has been in the habit of visiting the rebel camps, rides a horse [illegible] carries a pistol revolver and a handsome revolving rifle presented to her by some rebel officers with which she says she has killed a great many d—d Yankees She is said to be an unerring shot, and can put a ball in the ace of clubs nine times out of ten at the distance of one hundred yards She has been pursued many times, but has made her escape by the fleetness of her horse and when cornered, where escape seemed impossible would cause her horse to leap the most horrid ravines and plunge over rocks where the soldiers dare not follow her She was taken by strategy and sent to prison once before and imprisoned, but by the interference of some Secession ladies there, then she was released her on parole When brought before the captain of the company who arrested her, the captain said "Well Miss Jenny you must come to visit us again," to which she replied with a terrible oath and snatching a rifle from one of the guards discharged it at the captain in an instant but he saw the movement and struck up the muzzle of the gun and the ball passed through his cap just grazing his head

THE SIEGE OF RICHMOND —The correspondent of the Philadelphia *Press* in the Peninsula, says:

Everything is ready on the field [illegible] which is evidently to be the field [illegible] advance upon Richmond, [illegible] the whole army sweeping [illegible] the enemy. The rebel army numbers about one hundred thousand [illegible] with 72 field pieces To back this they have their parallels of earthwork to which they will no doubt fall back, if they are so blind as not to know that they will certainly be crushed Our entire lines are gradually advancing and the big fight must soon take place [illegible] stand firm it will be the most [illegible] ever fought upon this continent We have the advantage of [illegible] material, discipline and [illegible] courage Our artillery is far more effective than theirs in every way

The enemy has no [illegible] left, and he must fight [illegible] certain and will [illegible] our artillery and cavalry are [illegible] and our Generals [illegible] and divisions, rather [illegible]

I can say nothing of [illegible] the strength or of the advantages [illegible] be permitted to say that the Army [illegible] cannot [illegible] military authority

The full must [illegible] the sound for the [illegible] our ears The rebels are still [illegible] position with their artillery [illegible] as well save their ammunition [illegible] only feeling their positions [illegible] and holding them one after another every hour almost

NEAR BAPTISM.—We heard that Doctor Loryea came near prematurely receiving the ordinance of baptism yesterday forenoon, which an insane individual who claimed to be the Messiah came near administering to the Doctor from a small boat while was being conveyed across the river to the Insane Asylum. MORAL.—Trust not to [illegible] subjects what should be regarded with great solemnity.

BEAUTY AND SIMPLICITY OF CONSTRUCTION

AND

Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order. It should make a TIGHT LOCK-STITCH alike on both sides of the material, and should sew any and all materials that can be sewed.

It should be able to bind with a binder, hem with a hemmer, and should stitch, fell, run and gather, and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk above or below to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam and commence sewing tightly at the first stitch, and [illegible] readily, and make but little noise.

It should have a wheel feed, no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw driver or wrench to set the needle.

PAIN PANACEA.

Is composed entirely of healing gums and vegetable oil and balms. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted who have not used it, to try it for the following disorders. If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely and take a dose of it internally morning, noon and night, it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia and your food distress you, your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhoea, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time, it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

S[illegible] HISTORIES. A New Orleans correspondent of the New York Times, speaking of the position of affairs in Central Department says:

Already New Orleans is the refuge of prominent planters. Southern men born, who have fled to this present city of refuge to save their lives, their enemies being their neighbors, with whom they have lived in peace all their days throughout the previous years of a long life. It is also well authenticated here that up in the Red River country, which joins upon Texas, a decree has been passed that no citizen shall return to that section of the country who has been in New Orleans, and in the parishes beyond our lines every citizen who takes the oath of allegiance to the United States, the guerrillas have in advance condemned to death. The dark and bloody deeds that are to be enacted in the Southern States ere peace is restored, the homes that are to be desolated, the murders that are to be perpetrated, the suffering of sickness and starvation that is to ensue among helpless women and children, no pen can portray, no imagination conceive. Truly, the Southern people have trained up rebellion only to have the poisoned chalice put to their own lips.

A Memphis correspondent writes: On last Friday evening, a well dressed and genteel looking woman—said to be the wife of an officer in the Confederate army—deliberately walked up to a soldier of one of the Indiana regiments, who was on duty at the wharf here, and spat in his face. A number of persons were present and witnessed the disgraceful act. The soldier looked at the "lady" for a moment, and with the simple remark, "You are very polite, madame, indeed," removed to another part of his "beat."

Address, DR. L. J. CZAPKAY, San Francisco.

Of all diseases the first great cause Springs from neglect of Nature's laws.

To the Afflicted:

Sufferers when a cure is guaranteed in all stages of secret diseases—Self Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance, and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stage of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted who may place themselves under my care, a perfect and permanent cure. Private diseases are the great enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in a Scrofula, Tetter, Ulcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system—drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of females treated on principles established by fifteen years of practice, and sanctioned by thousands of the most remarkable cures.—Medicines with full directions sent to any part of the State or Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.
